

## Purrla Ragdolls Sales Contract and Health Guarantee:

Description of Kitten/Cat:

Price

Parents:

### The Buyer Agrees to the Following:

The kitten/cat is to be kept indoors unless in an outdoor enclosure.

The kitten/cat is not to be partially or entirely declawed for any reason.

The kitten/cat should be taken to the vet within 48 hours of pickup to establish he/she is healthy. If the pet's health is questionable, the buyer has 48 hours after veterinary exam in which to supply the seller with a veterinarian's report which includes a written diagnosis. **No "extra" blood work or "optional" vaccinations without consulting the seller.** Giving the FeLV and FIP vaccines will void your health guarantee and subjects the cat to an increased risk for cancer.

If the Buyer fails to comply with any aspect of this agreement, he/she forfeits any rights Buyer may otherwise have and voids the health guarantee. If legal action is required to enforce this contract, buyer is to pay for all legal expenses incurred by the seller and all legal actions (i.e., court appearances) are to take place in Bernalillo County, New Mexico.

*If it is found that the cat/kitten is neglected, or abused the Seller has the right to confiscate the cat/kitten. If for some reason the Buyer can no longer keep or care for this animal, the Seller must be contacted ASAP. The Seller agrees to never place this cat/kitten in a research facility or animal shelter which practices euthanasia when a home isn't promptly found. Though the Seller may be unable to take the cat/kitten back on the spot, she will locate a suitable new home for your cat/kitten. You will be responsible for housing your cat/kitten until that time.*

### The seller agrees to the following:

The seller guarantees the cat/kitten is free of: parasites, upper respiratory infections, FIP, FIV, and FeLV at the time of sale. The Buyer must provide documentation from a licensed veterinarian as proof the animal has any of these conditions. If the kitten dies, or has to be destroyed because of a genetic defect, before it is 5 years old the breeder will replace the pet, upon being provided a necropsy report. This report must expressly state a genetic defect. Breeder is not obligated to replace the exact pattern, color or sex. **No exchanges or replacement kittens will be provided if I am no longer breeding. Breeder does not give refunds.**
